922 ineligible ballots were also collected that were not counted. 180 of those ballots were cast by students graduating in January 2017 and 632 were cast by students graduating in May 2017. The remaining ballots were cast by voters ineligible for other reasons.

Additionally, ballots in which a student did not indicate a yes or no vote, but nonetheless cast the ballot were counted in the total section but that ballot is not reflected in the Yes or No column.
